Serious Hockey
 Instruction
 For Serious
 Hockey Players

21st
 Year!

Inc.

"I was extremely impressed with the instruction that my son received from the staff at Prime Time Hockey. I saw an instant improvement in his balance and agility over a short period of time. The techniques and skills taught by Stan and the rest of the instructors can easily benefit players of any level and give them that "extra edge" that they need to develop their game to it's highest level."

Randy Ladoucer: 16 years NHL Playing career, 11 years NHL coaching career.

Welcome To Prime Time Hockey

Proud to be in our 21st year of operation, Prime Time Hockey is well established as one of North America's top hockey schools for individual skating and skill development. We provide full time year round services including full week camps, specialized weekly classes, private and small group instruction, team instruction and career counseling.

After 14 years of operating our training headquarters in Toronto Canada, we are now proud to call Raleigh, North Carolina our new full time home. PTH headquarters in Raleigh offers the finest off-ice training facility of any hockey development program in southeastern USA, featuring a shooting centre and skating treadmill. No other hockey program has the ability to cater to hockey families like PTH. Most of our summer camps in Raleigh will be incorporating our fabulous off-ice facility.

As much as we can boast about our off-ice capabilities, PTH still maintains as its core that which allowed us to grow to our prominent position; our on ice skating program along with our team of teaching professionals is second to none.

If your hockey family has yet to participate in a PRIME TIME program, you are missing out on the most dynamic development program available.

"Prime Time Hockey's training programs have been a cornerstone in our five children's hockey development for the past several years. Stan's approach has fostered an even deeper love of the game, and more importantly, a passion for training and getting better in the off-season. This has been key in enabling all five children to excel at the highest level hockey has to offer in both New England prep school and MA travel hockey."

- Jeff and Michelle Flynn

"Our son began working with PTH over 6 years ago and it has been amazing to watch his progress. We have watched his skill and confidence grow beyond what we probably thought was possible, as he has progressed from a House Level player when he started with PTH - to now starting his second season of Travel AAA. PTH has been there for him every step of the way with both excellent instruction on the ice and support and encouragement off of the ice. We can honestly say, he wouldn't be where he is without PTH. We can't thank the guys at PTH enough for what they have done for our son and our family!!!"

-Joe and Jody Hill
